ABOUT US

Jabeeb Consult Limited an indigenous company incorporated on July 6 2018 and commenced her business operations with the aim of providing among other business objects both vocational and academic training to those who are prepared and willing to develop themselves and requires the requisite skills and knowledge to be engaged in the oil and gas, marine, Engineering and construction industries. Having provided various services, while working as an employee, the Directors observed and noticed the competency gaps in the Nigeria industry especially the oil and gas, marine, engineering and construction industries hence the vision which brought about the ideals for providing personnel training to address the skills gaps in these industries.

Jabeeb Consult Limited has adapted her quality management systems as part of top management strategic decision to deliver quality services in other to ensure that we meet and enhance the needs of the industry and delegates undertaking our training programmes.

COMPANY ORGANOGRAM:

Our Vision

To be a leading consultancy company delivering world-class premium value to all stakeholders and achieving operational excellence.

Our Mission

To build and sustain a leading consultancy company through innovative partnerships and premium value delivery.

Our Core Values

- We strive to create a working environment in which accidents are unlikely to occur, and the health and safety of employees, stakeholders and the public are not jeopardized.
- We ensure that our operations are environmentally friendly. The company implements programs designed to promote environmental sustainability.
- We are focused on creating and maintaining mutually beneficial relationships with our stakeholders through proactive collaborations with stakeholders in the spirit of true partnership, we deliver premium value.
- In working towards becoming a leading consultancy company, we work courageously and assiduously to lead and shape the future, leadership to us means always acting responsibly.
- We always perform in a manner that makes us accountable to both internal and external stakeholders. At Jabbeeb Consult Limited, we take responsibility for our actions.
- We are committed to working effectively as a team to deliver results far beyond our individual capabilities and customers expectation.

Leadership and Commitment

Jabeeb Consult Limited is committed to conducting its operations to the utmost HSSE & CR standards internationally obtainable in accordance with best industry practices. We will give utmost regard to Safety, Security of persons, preservation of operating Environment and peaceful coexistence with host communities and the public. We believe that the achievement of this commitment is an integral part of efficient and profitable business Management. Jabeeb Consult Limited management is wholly committed to ensuring that our operations are carried out in compliance with all company safety rules and regulations. This is achieved with our Managing Director/CEO being ultimately accountable and responsible for the overall safety of all employees.

The company shall ensure that all employees, trainees and other stakeholders abide by all safety rules and regulations. Jabeeb Consult Limited management firmly believes that the workers are her greatest assets and strength. As a result, the prevention of occupational injury or illness is always considered a top priority to ensure that each worker goes home safe and healthy after every work activity. The prevention of occupational injury or illness plans is pursued by ensuring that inspections and audits are carried out as when due and action items are promptly addressed and closed out. Jabeeb Consult Limited management shall ensure that work sites/training locations are visited on a regular basis to share concerns, cascade changes (Management of Change, MOC), in policy (If any) with the workforce and demonstrate leadership example, thereby re-enforcing compliance.

We shall provide a safe working environment for the workers/trainees by eliminating and or controlling all hazardous situations with the intent of achieving zero incidents/accidents (GOAL ZERO). Also, ensure immediate elimination of all injury/ill health cases at all work sites/training locations.

We shall take prompt action (stop work authority) to ensure a safe workforce and working environment. We shall provide and ensure fit for purpose machinery, equipment and tools and shall also ensure appropriate work gears for all personnel. We shall carry out training and re-training of all categories of employees and ensure that they are medically fit, ensuring that all personnel have access to adequate health care facilities.
